SW3.2 The number of heats in any event shall be determined by the number of lanes of the pool or the width of the course available for use and the number of swimmers.

SW3.3 Assignment to lanes shall be by placing the fastest swimmer in the centre lane in pools with an odd number of lanes, or in lane 3 or 4 respectively in pools having six (6) or eight (8) lanes and in lane 4 in pools of ten (10) lanes, numbered zero (0) to nine (9). The swimmer having the next fastest time is to be placed on his left, then alternating the others to right and left in accordance with the submitted times. Swimmers with identical times shall be assigned their lane positions by draw within the aforesaid pattern.

### **SW3.9 AMALGAMATION OF HEATS**

SW3.9.1 When a reduction in the number of heats is possible, owing to the withdrawal of swimmers, the Referee shall have the power to amalgamate two or more heats into one heat, or all heats into a final, PROVIDED THAT any alteration of the last heat shall be kept to a minimum

SW3.9.2 For the purpose of this Rule, a swimmer entered in an event who has not reported to the allotted place at the prescribed time shall be deemed to have withdrawn from the event.

### **PROCEDURE FOR AMALGAMATION OF HEATS**

On receipt of the list of original entries from the Marshals, showing those who have withdrawn, the Check Starter shall immediately notify the Referee who shall establish the need to amalgamate heats. The actual

reseeding and amalgamation into heats or a final shall be delegated to the Chief Recorder. The Referee shall direct the Check Starter to notify the Chief Judge and Chief Timekeeper of the amalgamation and the heat reallocation numbering. The Chief Recorder shall ensure that the Announcer and the Control Room Supervisor receives the swimmer reallocation to heats or a final for public announcement.

#### **SW4 THE START**

- SW4.1 The start in Freestyle, Breaststroke, Butterfly and Individual Medley races shall be with a dive. On the long whistle from the Referee, the swimmers shall step on to the starting platform and remain there. On the Starter's command "Take your Marks", they shall immediately take up a starting position with at least one foot at the front of the starting platforms. The position of the hands is not relevant. When all swimmers are stationary, the Starter shall give the starting signal.
- SW4.2 The start in Backstroke and Medley Relay races shall be from the water. At the Referee's first long whistle, the swimmers shall immediately enter the water. At the Referee's second long whistle, the swimmers shall return without undue delay to the starting position. When all swimmers have assumed their starting positions, the Starter shall give the command "Take your Marks". When all swimmers are stationary, the Starter shall give the starting signal.
- SW4.3 Any swimmer starting before the starting signal has been given shall be disqualified. If the starting signal sounds before the disqualification is declared, the race shall continue and the swimmer or swimmers shall be disqualified upon completion of the race. If the disqualification is declared before the starting signal, the signal shall not be given, but the remaining swimmers shall be called back and start again. The Referee repeats the starting procedure, beginning with the long whistle (the second one for Backstroke), as per SW2.1.11.
- SW4.4 In Handicap Events, the Starter will be positioned behind the starting platforms, behind the limit/first swimmer and will give the command "Get Ready, GO", at the same time bringing a handicap signalling device smartly down to a pre-arranged position and starting the stopwatch simultaneously with the word "Go". The Starter will move across the pool behind the competitors, counting off the seconds until the last swimmer's handicap starting number is called. Any swimmer who starts before "GO" or before his/her starting number shall be disqualified, unless he/she returns to the original starting point at the wall and restarts after the correct command or number.

**NOTE:** It is permissible for the Starter to give a "Stand Up" command if a swimmer is not stationary or is slow taking his/her starting position. If the swimmers are asked to "Stand Up" and a swimmer or swimmers do go into the water, if in the opinion of the Referee, the false start was caused by the Starter, the Referee shall have the discretion to allow the swimmers to start again.

## **SW5 FREESTYLE**

- SW5.1 Freestyle means that, in an event so designated, the swimmer may swim any style, except that in medley or medley relay events, freestyle means any style other than Backstroke, Breaststroke or Butterfly.
- SW5.2 Some part of the swimmer must touch the wall upon completion of each length and at the finish.
- SW5.3 Some part of the swimmer must break the surface of the water throughout the race, except it shall be permissible for the swimmer to be completely submerged during the turn and for a distance of not more than 15 metres after the start and each turn. By that point, the head must have broken the surface.

## **SW6 BACKSTROKE**

- SW6.1 Prior to the starting signal, the swimmers shall line up in the water, facing the starting end, with both hands holding the starting grips. Standing in or on the gutter or bending the toes over the lip of the gutter is prohibited.
- SW6.2 At the signal for starting and after turning, the swimmer shall push off and swim upon his/her back throughout the race except when executing a turn as set forth in SW6.4. The normal position on the back can include a roll movement of the body up to, but not including 90 degrees from horizontal. The position of the head is not relevant.

NOTE: References to “a backstroke ledge” in SNSW Rules are not relevant to WASA.

- SW6.3 Some part of the swimmer must break the surface of the water throughout the race. It is permissible for the swimmer to be completely submerged during the turn and for a distance of not more than 15 metres after the start and each turn. By that point the head must have broken the surface.
- SW6.4 When executing the turn, there must be a touch of the wall with some part of the swimmer’s body in his/her respective lane. During the turn, the shoulders may be turned over the vertical to the breast, after which an immediate continuous single arm pull or immediate simultaneous double arm pull may be used to initiate the turn. The swimmer must have returned to the position on the back upon leaving the wall.
- SW6.5 Upon the finish of the race, the swimmer must touch the wall while on the back in his/her respective lane.

NOTE: Backstroke start procedure shall be in accordance with SW4.2

## **SW7 BREASTSTROKE**

- SW7.1 After the start and after each turn, the swimmer may take one arm stroke completely back to the legs during which the swimmer may be submerged. At any time prior to the first breaststroke kick after the start and after each turn, a single butterfly kick is permitted.
- SW7.2 From the beginning of the first arm stroke after the start and after each turn, the body shall be on the breast. It is not permitted to roll on to the back at any time except at the turn after the touch of the wall where it

is permissible to turn in any manner as long as the body is on the breast when leaving the wall. From the start and throughout the race, the stroke cycle must be one arm stroke and one leg kick in that order. All movements of the arms shall be simultaneous and on the same horizontal plane without alternating movement.

- SW7.3 The hands shall be pushed forward together from the breast on, under, or over the water. The elbows shall be under water except for the final stroke before the turn, during the turn and for the final stroke at the finish. The hands shall be brought back on or under the surface of the water. The hands shall not be brought back beyond the hip line, except during the first stroke after the start and each turn.
- SW7.4 During each complete cycle, some part of the swimmer's head must break the surface of the water. The head must break the surface of the water before the hands turn inward at the widest part of the second stroke. All movements of the legs shall be simultaneous and on the same horizontal plane without alternating movement.
- SW7.5 The feet must be turned outwards during the propulsive part of the kick. Alternating movements or downward butterfly kicks are not permitted except as in SW7.1. Breaking the surface of the water with the feet is allowed unless followed by a downward butterfly kick.
- SW7.6 At each turn and at the finish of the race, the touch shall be made with both hands separated and simultaneously at, above, or below the water level. At the last stroke before the turn and at the finish, an arm stroke not followed by a leg kick is permitted. The head may be submerged after the last arm pull prior to the touch, provided it breaks the surface of the water at some point during the last complete or incomplete cycle preceding the touch.

**CLARIFICATION:** FINA has ruled that "separted" means that the hands cannot be stacked one on top of the other. It is not necessary to see space between the hands.

## **SW8 BUTTERFLY**

- SW8.1 From the beginning of the first arm stroke after the start and each turn, the body shall be kept on the breast. Underwater kicking on the side is allowed. It is not permitted to roll on to the back at any time, except at the turn, after the touch of the wall, where it is permissible to turn in any manner as long as the body is on the breast when leaving the wall.
- SW8.2 Both arms must be brought forward simultaneously over the water and brought backward simultaneously under the water throughout the race, subject to SW8.5.
- SW8.3 All up and down movements of the legs must be simultaneous. The legs or the feet need not be on the same level, but they shall not alternate in relation to each other. A breaststroke kicking movement is not permitted.
- SW8.4 At each turn and at the finish of the race, the touch shall be made with both hands separated and simultaneously at, above or below the water surface.

SW8.5 At the start and at turns, a swimmer is permitted one or more leg kicks and one arm pull under the water, which must bring him/her to the surface. It shall be permissible for a swimmer to be completely submerged for a distance of not more than 15 metres after the start and each turn. By that point, the head must have broken the surface. The swimmer must remain on the surface until the next turn or finish.

## **SW9 MEDLEY SWIMMING**

SW9.1 In Individual Medley events, the swimmer covers the four swimming strokes in the following order:

Butterfly, Backstroke, Breaststroke and Freestyle

Each of the strokes must cover one quarter (1/4) of the distance.

SW9.2 In Medley relay events, swimmers will cover the four swimming styles in the following order:

Backstroke, Breaststroke, Butterfly and Freestyle

SW9.3 Each section must be finished in accordance with the rule which applies to the style concerned.

NOTE: FINA has ruled that, in the case of the change from Backstroke to Breaststroke, the swimmer must touch the wall **while still on the back before** the shoulder has rotated beyond the vertical.

## **SW10 THE RACE**

SW10.1 A swimmer swimming over the course alone shall cover the whole distance to qualify.

SW10.2 The swimmer must remain and finish the race in the same lane in which he/she started.

SW10.3 In all events, a swimmer, when turning, shall make physical contact with the end of the pool or course. The turn must be made from the wall, and it is not permitted to take a stride or step from the bottom of the pool.

SW10.4 Standing on the bottom during freestyle events or during the freestyle portion of medley events shall not disqualify a swimmer, but he/she shall not walk.

SW10.5 Pulling on the lane rope is not allowed.

SW10.6 Obstructing another swimmer by swimming across another lane or otherwise interfering shall disqualify the offender. Should the foul be intentional, the Referee shall report the matter to the Member promoting the race and to the Member of the swimmer so offending.

SW10.7 No swimmer shall be permitted to use or wear any device or swimsuit that may aid his/her speed, buoyancy or endurance during a competition (such as webbed gloves, flippers, fins, power bands or adhesive substances, etc). Goggles may be worn. Any kind of tape on the body is not permitted unless approved by the session Referee.

Explanation: *The wearing of a medical bracelet is permitted.*

- SW10.8 Any swimmer not entered in a race, who enters the water in which an event is being conducted before all swimmers therein have completed the race, shall be disqualified from his/her next scheduled race in the meet.
- SW10.9 The number of swimmers on each relay team will be specified in the rules for the particular meet.  
Mixed relays may be swum. A mixed relay team must comprise at least two (2) female members and two (2) male members.
- SW10.10 In relay events, the team of a swimmer whose feet lose touch with the starting platform before the preceding team-mate touches the wall shall be disqualified.
- SW10.11 Any relay team shall be disqualified from a race if a team member, other than the swimmer designated to swim that length, enters the water when the race is being conducted, before all swimmers of all teams have finished the race.
- SW10.12 The members of a relay team and their order of competing must be nominated before the race. Any relay team member may compete in a race only once. The composition of a relay team may be changed between the heats and finals of an event, provided that it is made up from the list of swimmers properly entered by a Member for that event. Failure to swim in the order listed will result in disqualification. Substitutions may be made only in the case of a documented medical emergency.
- SW10.13 Except as provided in SW10.17, any swimmer having finished his/her race, or his/her distance in a relay event, must leave the pool as soon as possible without obstructing any other swimmer who has not yet finished his/her race. Otherwise, the swimmer committing the fault, or his relay team, shall be disqualified.
- SW10.14 Should a foul endanger the chance of success of a swimmer, the Referee shall have the power to allow him/her to compete in the next heat or, should the foul occur in a final event or in the last heat, he/she may order it to be re-swum.
- SW10.15 No pace-making shall be permitted, nor may any device be used or plan adopted which has that effect.
- SW10.16 Swimmers shall not leave the water at the finishing point in any event until instructed by the Referee.
- SW10.17 Unauthorised persons shall not be permitted in those areas of the pool designated for competition, for the swimmers or officials for the duration of any competition.

## **SW11 DETERMINATION OF TIMES AND PLACINGS**

At any swim meet, where the operation of approved Automatic Officiating Equipment is provided:

- SW11.1 The operation of this equipment shall be under the supervision of appointed Officials. Times recorded by Automatic Equipment shall be used to determine the winner, all placings and the time applicable to

each lane. The placing and times so determined shall have precedence over the decisions of Timekeepers. In the event that a breakdown of the Automatic Equipment occurs, or that it is clearly indicated that there has been a failure of the Equipment, or that a swimmer has failed to activate the Equipment, the recordings of the Timekeepers shall be official. (See SW13.3)

- SW11.2 When Automatic Equipment is used, the results shall be recorded only to 1/100 of a second. When timing to 1/1000 of a second is available, the third digit shall not be recorded or used to determine time or placement. In the event of equal times, all swimmers who have recorded the same time at 1/100 of a second shall be accorded the same placing. Time 1/100 of a second displayed on the electronic scoreboard should show only to 1/100 of a second.
- SW11.3 Any timing device that is terminated by an Official shall be considered a watch. Such manual times must be taken by three appointed and approved Timekeepers. All watches shall be certified as accurate to the satisfaction of the governing body concerned. Manual timing shall be registered to 1/100 of a second. Where no Automatic Equipment is used, official manual times shall be determined as follows:
- SW11.3.1 If two of three (3) watches record the same time, and the third disagrees, the two identical times shall be the official time;
- SW11.3.2 If all three (3) watches disagree, the watch recording the intermediate time shall be the official time;
- SW11.3.3 with only two (2) watch times recorded, the slower time recorded shall be the official time;
- SW11.3.4 with only one (1) watch time recorded, that shall be the official time.
- SW11.4 Should a swimmer be disqualified during or following an event, such disqualification should be recorded in the official results, but no time or place shall be recorded or announced.
- SW11.5 In the case of a relay disqualification, legal splits up to the time of the disqualification shall be recorded in the official results.
- SW11.6 All 50 metre and 100 metre splits shall be recorded for lead-off swimmers during relays and published in the official results.

### **PLACINGS**

- SW11.7 The swimmers concerned in equal placing in an event shall jointly hold the title, and if the promoting body consents, divide the prize involved, or shall re-swim the event within seven (7) days at such time and place as the promoting body may direct.
- SW11.8 Where a swimmer is disqualified for any reason, including drug misuse or Doping Control, the placing he/she would have held shall be awarded to the swimmer next placed and the other swimmers advanced accordingly. When the disqualification occurs after the presentation of the awards, such awards shall be recalled and represented to the appropriate swimmers as determined by this Rule.

SW11.9 For determination of placings when Automatic Officiating Equipment is not used and if the times registered by the Timekeepers do not agree with the decision of the Finish Judges and where the time of a swimmer placed second is better, the first placed swimmer and the second placed swimmer shall be credited with the times calculated on the average of the actual times recorded for both the first and second places. The same principle is to apply to all placings. It is not permissible to announce times which do not support the classifications made by the Finish Judges.

NOTE: The Referee shall determine placings when the Finish Judges' decision is not supported by the times recorded.

## **SW12 RECORDS**

Refer to **7 RECORDS** (Page 4).

## **SW13 AUTOMATIC OFFICIATING PROCEDURE**

SW13.1 When Automatic Officiating Equipment (see [www.fina.org](http://www.fina.org) under FINA Facilities) is used in any competition, the placing and times so determined and relay take-offs judged by such Equipment shall have precedence over the timekeepers.

SW13.2 When the AOE fails to record the place and/or time of one or more swimmers in a given race:

SW13.2.1 Record all available Automatic Equipment times and places

SW13.2.2 Record human times and places

SW13.2.3 The official place will be determined as follows:

SW13.2.3.1 A swimmer with an Automatic Equipment time and place must retain his/her relative order when compared with the other swimmers having an Automatic Equipment time and place within that race.

SW13.2.3.2 A swimmer not having an Automatic Equipment place but having an Automatic Equipment time will establish his/her relative order by comparing his/her Automatic Equipment time with the Automatic Equipment times of the other swimmers.

SW13.2.3.3 A swimmer having neither an Automatic Equipment place nor an Automatic Equipment time shall establish his/her relative order by the time recorded by the Semi-Automatic Equipment or by three digital watches.

SW13.3 The official time will be determined as follows:

SW13.3.1 The official time for all swimmers having an Automatic Equipment time will be that time.

SW13.3.2 The official time for all swimmers not having an Automatic Equipment time will be the three digital watches or the Semi-Automatic Equipment time.

SW13.4 To determine the relative order of finish for the combined heats of an event, proceed as follows:

SW13.4.1 The relative order of all swimmers will be established by comparing their official times.

SW13.4.2 If a swimmer has an official time which is tied with the official time(s) of one or more swimmers, all swimmers having that time shall be tied in their relative order of finish in that event.
